

PROPERTIES

Proven semiconductor technology

Sensors

Methane (ppm, Vol.%), O₂, CO₂

Adjustment/ Calibration

Operating time
Up to 12 hours

Rechargeable battery
Lithium-Ionen

Intuitive operation

Data memory

Data transfer
Connection to GIS Software

Special probe accessories

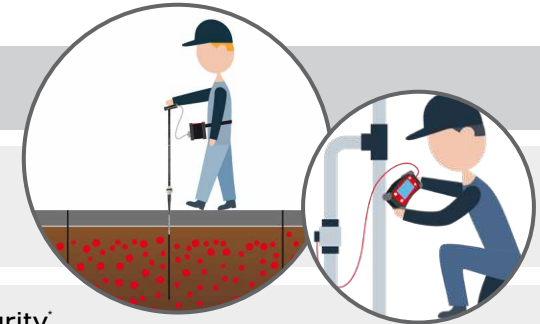

APPLICATION

0-100 Vol.%

Measuring gas concentrations in probe holes*

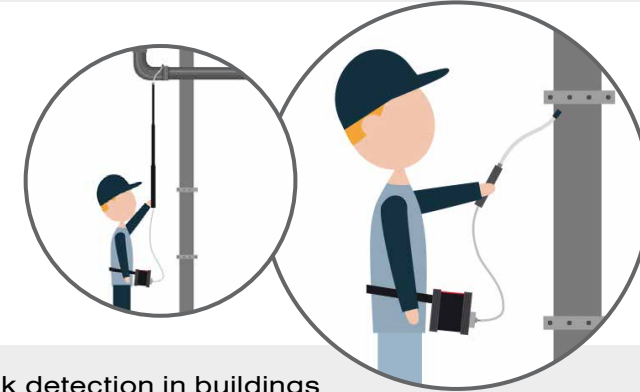

Pipe filling / gas purity*

HUNTER

Leak detection in buildings and on industry plants

Leak detection above ground

0-1.000ppm
